

1556-ES
FOAMY CHLORINATED
CLEANER

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

NOW! - Superior Food Plant Cleaning

High Sudsing - Free Rinsing

Maintains brilliant,
film-free walls, floors,
and equipment—

Minimizes milkstone,
beerstone, water scale
accumulation—

High impact cleaning
and fast rinsing —

- Quick Penetration
- Quick Action
- Cleans with the clinging foam of an industrial detergent.

CHLORINATED

- SUPERIOR PROTEIN REMOVAL
- MINIMIZES STEPS
- SAVES WATER
- EXCELLENT FOR EXTERIOR EQUIPMENT CLEANING

AUTHORIZED BY USDA FOR USE IN FEDERALLY INSPECTED MEAT AND POULTRY PLANTS.

INVALUABLE IN THE CLEANING OF BOTTLING AND FOOD PLANT EQUIPMENT

ALSO IDEAL FOR
DAIRIES — MEAT PACKERS — OTHER FOOD PROCESSORS

SAFE TO USE — ECONOMICAL

Available in 55 gal. Drums

TECHNICAL DATA

FOREMOST 1556-ES FOAMY CHLORINATED CLEANER

Rev. 7-25-17

DESCRIPTION: A highly concentrated foamy chlorinated cleaner especially formulated for general cleaning in food processing and/or packaging plants. It was developed to provide cleaning power on vertical surfaces by providing a foamy product which clings to the surface and provides better cleaning.

APPLICATION: Recommended for use in dairies, creameries, breweries, meat packers, and other food processing plants. Foremost 1556 cleans stainless steel surfaces, conveyors, packaging machines, floors, and food processing equipment.

DIRECTIONS: **CLEANING:**

1. Using FM 8357 Econo Foamer, FM 9665 Dispens-O-Matic, FM 8354 Spray Master, or other suitable spray equipment, set dilution rate to dilute 1 part 1556-ES to 20 to 64 parts water (64:1 yields 50ppm available chlorine).
2. Thoroughly saturate all surfaces to be cleaned.
3. Rinse with potable water.
4. Follow with additional sanitizing rinse using FM 1691-ES Quad-Dis Plus if desired.

NOTE: NOT RECOMMENDED FOR CLEANING GLASS. If incidental contact occurs, rinse immediately with water.

PRECAUTIONS: Contains potassium hydroxide and sodium silicate. Causes severe burns to eyes and skin. Do not get in eyes, skin, or clothing. Do not take internally. No irritation is likely following short contact periods with human skin. Prolonged and/or repeated exposure may lead to redness, swelling, and necrosis. Wash thoroughly after handling. When handling, always wear chemical splash goggles, face shield, rubber gloves and protecting clothing.

FIRST AID: EYES AND SKIN: IN cases of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Destroy contaminated shoes. **INGESTION:** If swallowed do not induce vomiting. Give large quantities of water or milk, if available. Get medical attention immediately.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.
