

1662 SEWER SOLVENT

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

NO SPLATTERING—NO BOILING—NO FUMING

NOW YOU CAN ELIMINATE

1. Clogged Sewers
2. Clogged Drain Lines

AND

3. The Hazards Of Powdered
Drain Pipe Cleaners

Authorized by USDA for use in
federally inspected meat and poultry plants.

DISSOLVE YOUR SEWER PROBLEMS FAST!

FAST ACTION—Being highly activated, Foremost 1662 produces immediate results by dissolving grease, food particles, fats, wax paper, feathers, hair, pen roots and other organic matter.

HIGHLY EFFECTIVE LIQUID—Flows straight to the point of obstruction, or mixes with backed-up water, to rapidly penetrate and dissolve congestion, causing it to disintegrate into a flowable state.

FOREMOST 1662 eliminates dangerous unhealthy back-up of disease-laden waste. A fraction of the unclogging charge, used periodically, will keep lines clean and free of build-up assuring fast and sanitary waste disposal at all times.

CAUTION—This material is highly alkaline, and care should be used in handling to avoid contact with hands and skin. It should not be used on aluminum, painted surfaces, or floor coverings.

— NOTE —

Foremost 1662 is rapidly replacing granular-type drain cleaning compounds. It is less hazardous and faster. Unequaled in attack on organic matter, it will not harm concrete, iron or composition piping.

APPLICATIONS—

1. To unclog municipal sewers, pump stations and lines.
2. Cleans grease traps
3. Washroom and production drains and lines in factories, food plants, institutions, etc.

TECHNICAL DATA

FOREMOST 1662 SEWER SOLVENT

Rev. 6-22-17

DESCRIPTION: A fast-acting, odorless liquid drain pipe solvent that is ready-to-use, requires no pre-mixing and upon contact with greases, oils, and fats, forms a soluble soft mass that flows through the drain lines without clogging. Its action is highly effective on roots, rags, matches, paper, hair and other organic matter. Since it is heavier than water it will readily drop below the water level to the point of obstruction and promptly penetrate the congestion, causing it to disintegrate into a flowable condition. This product does not offer the disadvantages of many powdered drain pipe cleaners and is rapidly replacing the older type products. No objectionable odor is generated, yet it works as a powerful, fast-acting laxative to the plumbing system.

APPLICATION:

1. To unclog city sewers and to digest and prevent root growth in same.
2. Unclogging grease traps.
3. Washroom drains in factories, schools, institutions, office buildings, etc.
4. Packing house drains for dissolving fat, grease and hair.

DIRECTIONS: **CLOGGED DRAINS, SINKS, TUBS, WASHBOWLS AND TRAPS:** Pour approximately ½ to 1 pint into drain opening. Do not use drain for a half hour. Give it time to work into the pipe or drain traps. Add a small amount of water if drain boils up. After half an hour, flush with water. If drain or trap is not completely open, repeat treatment.

LARGE FLOOR AND OTHER DRAINS, SEWERS, ETC.: Follow same instructions as above except increase dosage to approximately 1 to 4 quarts depending on the particular requirements.

PREVENTATIVE MAINTENANCE: Use approximately ½ to 1 pint per drain weekly or as often as needed.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** Contains potassium hydroxide. Causes severe burns to eyes or skin. Do not get in eyes, skin, or clothing. Do not take internally. No irritation is likely following short contact periods with human skin. Prolonged and/or repeated exposure may lead to redness, swelling, and irritation. Wash thoroughly after handling. When handling, always wear chemical splash goggles, face shield, rubber gloves and protective clothing.

FIRST AID: EYES AND SKIN: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Destroy contaminated shoes. **INGESTION:** If swallowed do not induce vomiting. If person is conscious, give large quantities of water or milk, if available. Get medical attention immediately.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.

FACTS

1. Eliminate the hazards of powders
2. Fast action
3. It goes to the bottom
4. Simple to use
5. Less waste

BENEFITS

1. No dissolving problems are encountered with Foremost 1662; no spattering—no boiling—no fuming
2. Foremost 1662 is highly concentrated and activated to produce immediate results. Dissolves grease, hair, food particles and many others.
3. The liquid form of 1662, being heavier than water, flows straight to the point of obstruction where, many times, powder compounds would never reach.
4. Already in solution, Foremost 1662 is merely added to drain; no water addition required.
5. No accumulation of moisture in drums, as is the case in powders. No hardening or solidifying in drums. More economical.
