SCRUB-VAC

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

NEW!

**At Last...
A Floor Cleaner
That Really Adapts
To The Job!**

**Authorized by USDA for use in
federally inspected meat and poultry plants.**

**CONTAINS NO CFC'S OR OTHER
OZONE DEPLETING SUBSTANCES**

STRIPS STUBBORN SOIL AND WAX—FAST!

DUAL PURPOSE—Foremost Scrub-Vac is the one floor maintenance cleaner designed to handle the toughest cleaning jobs. It is used either as, (1) a cleaner, or (2) a wax remover, simply by preparing the dilution ratio desired.

LOW SUDSING—Recommended specifically for use in floor scrubbing machines—no troublesome foam to interfere with cleaning action or vacuum pick-up.

POWERFUL—Foremost Scrub-Vac digs down deep to get at hidden soils. Releases grip of stubborn grime and waxes—chemically removes film, soap scum and other soils.

PROTECTS—Contains no abrasives or acids. It saves and protects the floor surfaces as it cleans.

ECONOMICAL—The secret is in the concentration. No waste of cleaning power. Only small amount required.

— NOTE —

Foremost Scrub-Vac delivers more dynamic cleaning and wax removal power per ounce than most soaps and detergents costing dollars more!

RECOMMENDED FOR—

TECHNICAL DATA

FOREMOST 3075 SCRUB-VAC

Rev. 1-22-19

DESCRIPTION: A highly concentrated liquid designed especially for use in floor scrubbing machines for cleaning and removing wax from composition flooring. It is equally suitable for asphalt, linoleum, vinyl, rubber, asbestos, as well as marble, tile and terrazzo floors. This concentrate contains no acids, abrasives or solvents that would have a deleterious effect on the surfaces. It will effectively disperse and deflocculate self-polishing water waxes as well as soils, maintaining them in a dispersed state for ease of removal.

APPLICATION: It is adaptable to a wide variety of floor surfaces. When used in floor scrubbing machines, it is recommended for all composition flooring which requires safe and efficient cleaning and removal of water wax.

DIRECTIONS: For Cleaning _ Dilute one part with 40 parts warm water for fast cleaning action. This concentration may be varied to meet individual requirements. For Wax Removal _ Dilute approximately 1 part with 20 parts warm water. Apply the solution with the floor scrubbing machine using a #3 steel wool or synthetic scrubbing pad under the machine. If desired, allow 10 minutes to soften wax, then remove with a scrubbing pad under the machine.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** Contains Ethylene Glycol Monobutyl Ether. May cause eye and skin irritation. Avoid contact with eyes and skin. No irritation is likely following short contact periods with human skin. Prolonged and/or repeated exposure may lead to redness, swelling and irritation. Do not take internally.

FIRST AID: EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get medical attention if burning persists. **SKIN:** In case of contact, flush with plenty of water. **INGESTION:** Get medical attention.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.

FACTS

1. Fast
2. Dual purpose
3. Low sudsing
4. Protects
5. Concentrated
6. Versatile

BENEFITS

1. Digs deep to get at hidden soil, releases stubborn grime, waxes and other finishes
2. Used either as a cleaner or a wax remover by adjusting the concentration
3. No troublesome foam to interfere with cleaning action when used through floor scrubbing machines
4. Protects the floor surfaces as you clean, contains no acids or abrasives
5. No waste of cleaning power, only a small amount required
6. Recommended for any hard tile, marble and terrazzo; also any composition tile floors
