

3090

WAX STRIPPER

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

At Last...A Wax Remover That Really
Dissolves Wax and Finishes

**TAKES THE WORK OUT OF
WAX REMOVAL!**

**NO SCRAPING!
NO DISCOLORATION!**

**Foremost 3090
removes unsightly build-up
of waxes and synthetic finishes—
restores floors to original beauty.**

STRIPS FAST—THE EASY WAY

EASY-TO-USE—Gives professional results when used by regular janitorial personnel. Floors are left sparkling clean and ready for rewaxing.

DOES THE JOB—Removal is always complete, no matter what type of water base finish is involved. Foremost 3090 penetrates fast and thoroughly to disperse and deflocculate waxes and finishes, as well as removing heavy soils simultaneously.

PROTECTS—Foremost 3090 is used with the assurance of complete safety to floors. It contains no free acid, strong inorganic alkalies or solvents that would harm floor surfaces.

ECONOMICAL—The secret is in the concentration. No waste of cleaning power—only a small amount is required for heaviest wax build-up.

NOT RECOMMENDED FOR USE ON WOOD FLOORS.

— NOTE —

Cleaning and wax removal is the essential ingredient in proper floor preparation. What a difference you will see after using this outstanding floor care material.

RECOMMENDED FOR—

- Composition Tile
- Vinyl
- Rubber
- Asphalt
- Any resilient or Non-Resilient Floor
- Marble
- Tile
- Terrazzo

TECHNICAL DATA

FOREMOST 3090 WAX STRIPPER

Rev. 2-16-17

DESCRIPTION: Foremost 3090 Wax Stripper is a highly concentrated liquid product designed specifically for use on asphalt tile and other composition flooring. It is equally suitable for marble, tile, terrazzo, vinyl, rubber and linoleum. This concentrate is designed to be diluted according to directions of use. Do not allow the concentrated material to come into contact with floors.

Foremost 3090 Wax Stripper will effectively disperse and deflocculate self-polishing water-based waxes as well as soils, maintaining them in a dispersed state. Mopping or flushing is accomplished without redeposition to the surface.

APPLICATION: Foremost 3090 Wax Stripper is adaptable to a wide variety of floor surfaces. It is recommended for all composition flooring which requires safe and efficient cleaning and removal of water-based wax deposits.

DIRECTIONS: **FOR CLEANING:** Approximately 2 to 4 ounces per gallon of warm water provides fast cleaning action. The concentration may be varied to meet individual requirements. Mop floors with the solution and rinse thoroughly with minimum of clean water.

FOR WATER-BASED WAX REMOVAL: (asphalt, linoleum, vinyl, tile, etc.) Dilute 1 part Foremost 3090 with 3 to 6 parts of warm water. Apply the solution with a mop or suitable applicator and allow to stand on the floor not more than 5 minutes. Then scrub with fine steel wool, if needed, and rinse with minimum of clean water. **DO NOT FLOOD FLOOR WITH WATER.**

Then mop or squeegee until dry. The concentration to be used may vary with age and amount of wax accumulation on the surface. Never use Foremost 3090 in its concentrated form.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** Contains potassium hydroxide, ethylene glycol monobutyl ether and isopropyl alcohol. May cause eye and skin irritation. Avoid contact with skin, eyes, and clothing. No irritation is likely following short contact periods with human skin. Prolonged and/or repeated exposure may lead to redness, swelling, and necrosis.

FIRST AID: EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get medical attention immediately. **SKIN:** In case of contact, immediately flush with plenty of water.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.
