DUST COMMAND

Available in Oil-Based as well as Water-Based Formulations

MORE THAN JUST A DIRTY PROBLEM

Dust aggravates Asthma, Bronchitis, Emphysema & Allergies.

Silica dust causes silicosis and is considered a carcinogen by The International Agency for Research on Cancer (IARC).

Hardwood Dust is recognized as carcinogenic by the American Conference of Governmental Industrial Hygienists.

In addition to the adverse health effects of dust, airborne dust can create the potential for a dust explosion.

EASILY APPLIED

Dust Command is an easily applied ionically charged liquid designed to attract dust and hold it at floor level. Foremost Dust Command attracts and neutralizes the electro-static charge in most dirt, plastic, paper, wood, metal, fabric & other industrial dust particles.

PARTICLE ELIMINATION

Dust Command minimizes or eliminates stirring-up of dust particles by fork lifts, floats, foot traffic, and air movement. Even when vigorously swept, dust will seldom rise above knee level.

ECONOMICAL

Dust Command's chemically induced magnetic attraction & absorption qualities last 7-14 days. One gallon covers 8k-15k sq. ft. when using our 2 gallon garden type sprayer or the Neverpump Bak-Pak Sprayer, application is as fast as one can walk.

MAINTENANCE

Dust Command makes sweeping easier and also, because of a built-in emulsifier, quickly releases when washed, mopped or scrubbed. Dust Command eliminates the need for old fashioned floor sweeps and the mess they leave behind.

FM 8355 NEVERPUMP™ BAK-PAK® SPRAYER
FM 8358 POLY-PRO SPRAYER

- No Mixing, Ready-To-Use
- Easily Applied With Sprayer
- Special Nozzle For Misting Effect

• STORAGE WAREHOUSES

• FEED MILLS

• WOODWORKING INDUSTRY

• AUTO BODY SHOPS

SPECIALLY FORMULATED

Dust Command is formulated to help meet OSHA and environmental requirements.

FOOD PLANT DUST CONTROL

- Flour Mills
- Grain Elevators
- Food Warehouses
- Fertilizer Plants & Warehouses
- Food Processing Plants
- Warehouse Areas

NOTABLE FEATURES

- Traps Dust with a magnetic-like grip
- Holds Dust at floor level
- Greatly reduces airborne dust

IDEAL FOR FLOORS IN

- Tile & Flooring Warehouses
- Manufacturing Plants & Mills
- Warehouses
- Laundries
- Auto Body Shops
- Printing Plants
- Paint Shops
- Textile Plants
- Computer Wholesalers
- Electronics Rooms
- Paper Converters
- Furniture Distribution
- Building & Roofing Supply Warehouses

PACKED ECONOMICALLY IN 55 GALLON DRUMS

DESCRIPTION:

Dust is typically negatively charged and Dust Command contains ionically positive charged dust laying agents which hold and attract airborne dust to floor level. Inhibiting dust movement aids in maintenance, product cleanliness, and safety. Dust Command attracts dust and neutralizes the electro-static charge in the dust particles. Treated floors and surfaces trap and hold dust, preventing the particles from rising and coating merchandise and work objects.

APPLICATION:

Designed for use on concrete or wood floors in warehouses, paint shops, furniture plants or wherever dust must be controlled.

DIRECTIONS:

FOR CONCRETE FLOOR SPRAYING:

1. Fill sprayer approximately 1/2 full and pump up sprayer. Lock handle.
2. Adjust nozzle to obtain a fine spray mist.
3. Spray a very fine mist (do not wet floor).
4. Sweep floor.
5. Mist over floor again after sweeping to hold dust down until next sweeping or next spraying.

FOR DUST MITT AND YARN BROOM SPRAYING:

1. Spray a fine light mist on dust or yarn broom and air cure for 6 hours or more.
2. Respray lightly between uses.

PRECAUTIONS :

The Neverpump™ Bak-Pak® sprayer is a highly-efficient sprayer, suitable for dispensing Dust Command over larger areas. Powered by a 12V/10Ah battery, this sprayer saves labor time and attains 3 to 4 times more efficiency than a manual sprayer. This sprayer can be operated continuously for up to 10 hours and spray 110 gallons of liquid after one full charging-which consumes only 0.3 kwh of electricity.

3121-ES, 3122-ES & 3125-ES DUST COMMAND. KEEP OUT OF REACH OF CHILDREN. Contains Petroleum Distillate. Do not take internally. May be harmful if swallowed. If ingested, get immediate medical attention. Keep away from heat and open flame. Use with adequate ventilation. Avoid breathing of spray mist. Avoid contact with skin and eyes. Keep container closed when not in use. Prolonged contact with skin can cause moderate irritation, defatting, dermatitis.

3126-ES DUST COMMAND KEEP OUT OF REACH OF CHILDREN. May cause eye and skin irritation. Avoid contact with eyes and skin. No irritation is likely following short contact periods with human skin. Prolonged and/or repeated exposure may lead to redness, swelling, and irritation. Do not take internally.

FIRST AID: If on SKIN: Wash thoroughly with soap or mild detergent and water. If in EYES: Flush with large amounts of water, lifting upper and lower lids occasionally. Get medical attention. **INGESTION:** Get immediate medical attention.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.
