# TECHNICAL DATA

## FOREMOST 4549-ES CITRUS CRÈME SMOKE EATER

### DESCRIPTION:

A high quality liquid concentrate designed for effective and total control of obnoxious odors. Special ingredients are blended to neutralize and destroy odors caused by organic decay, residual smoke particles, pet feces, mold, sewage and cooking. It acts instantly at the source and remains effective for long periods.

### APPLICATION:

Recommended for controlling odors in apartments, motels and hotels, restaurants, theaters, nursing homes, schools and other institutions, automobile and recreational vehicle dealers, business and office buildings and anywhere malodors exist.

### DIRECTIONS:

**GENERAL ROOM DEODORIZING:** Dilute solutions are recommended for control of general odors. One part concentrate to 5-10 parts water should be sufficient, however, concentration can be varied to suit the needs. Application can be made through trigger sprayer or other suitable device. Spray carpets and draperies and other fabric areas primarily, as this is where most odors will linger.

**CARPET DEODORIZING:** Heavier odors generally exist in carpets, resulting from pets and spills of food and beverages. Stronger concentrations must be used: One part concentrate to 1-5 parts water sprayed directly to offending area. Remember, soils or source of odor must be removed first before treating with Smoke Eater. When shampooing or steam cleaning carpets, general deodorizing can be made by adding 1/2 - 1 cup of concentrate to cleaning solution in tank.

**HEAVY SMOKE DAMAGE, BUILDINGS:** Controlling smoke odors in buildings where fire damage occurred requires all burned articles and surfaces be removed first and general cleaning measures taken. Full strength chemical must be used, application being made through a Foremost 9630 Challenger Sprayer. Saturate area with a fine mist and leave area closed for about a day. Ventilate area afterwards for several hours. Be sure to use respirator while applying concentrate or for prolonged exposure in closed areas.

**NOTE:** Quality finished wood surfaces should first be covered with plastic.

### PRECAUTIONS:

**KEEP OUT OF REACH OF CHILDREN.** May cause eye irritation. Avoid contact with eyes. No irritation is likely following short contact periods with human skin. Prolonged and/or repeated exposure may lead to redness, swelling and irritation. Do not take internally.

**FIRST AID: EYES:** In case of contact, immediately flush with plenty of water for at least 15 minutes. Get medical attention if burning persists. **INGESTION:** Get medical attention.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.
