

4575-ES CITRAFECT

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

REDUCE THE THREAT OF MRSA/DEADLY INFECTIONS

CITRAFECT IS EFFECTIVE! Deodorizes and sanitizes in one easy application. One aerosol eliminates offensive odors, disinfects and sanitizes hard nonporous, nonfood-contact surfaces.

CITRAFECT IS VERSATILE! A wet aerosol mist may be applied to any precleaned, hard, nonporous, nonfood-contact surface in industrial, institutional, commercial, medical, and residential facilities, equipment, and vehicles leaving a germ-free, disinfected, and deodorized surface.

CITRAFECT IS PLEASANT! The fresh citrus fragrance is pleasing and does not have the "medicinal" odor commonly associated with sanitizing, disinfecting aerosol products.

CITRAFECT DEODORIZES! Citrafect deodorizes two ways. The pleasant citrus scent suppresses existing unpleasant odors while controlling microorganisms that could continue to create foul, putrefactive odors.

CITRAFECT IS BROAD-SPECTRUM! Virucidal, Tuberculocidal, Fungicidal, Bactericidal, Pseudomonicidal, Staphylocidal/MRSA. Controls mold/mildew and fungi.

CITRAFECT ATTACKS HARMFUL VIRUSES AND BACTERIA ON THESE SURFACES: Toilets, urinals, bathtubs, shower stalls, seats, benches, lockers, partitions, counters, fixtures, door knobs, handles, railings, telephones, furniture, equipment, bath mats, medical equipment, shoes, mats, athletic shoes, athletic equipment, ambulance interiors, mass transit vehicle interiors, any surface in the public or private domain.

RECOMMENDED FOR: Schools, Hospitals, Universities, Athletic Clubs, Country Clubs, Transit Authorities, Detention Facilities, Restaurants, Hotels, Industrial Accounts, Food Processors, Nursing Homes, Assisted Care Living Facilities, Casinos, Military Bases, Office Buildings, Cafeterias, City, County, State, and Federal Government Facilities

TECHNICAL DATA

FOREMOST 4575-ES CITRAFECT

Rev. 9-8-15

DESCRIPTION: An excellent disinfectant, antimicrobial agent and two-way deodorizer for use on pre-cleaned, hard, nonporous surfaces, including toilets, urinals, bathtubs, shower stalls, seats, benches, lockers, partitions, counters, fixtures, knobs, handles, railings, telephones, furniture, equipment and many other similar public and private items and surfaces which could harbor hazardous microorganisms.

APPLICATION: **FOR USE IN:** Industrial, Institutional, Commercial, Medical, and Residential facilities, equipment, and vehicles, including hospitals; ambulances; nursing homes; medical and dental offices and clinics; veterinary offices and animal areas; schools; laboratories; hotels and motels; restaurants and cafeterias; food storage, processing, packaging, handling, and serving establishments and equipment; offices; stores; factories and manufacturing plants; and apartment buildings and homes. **FOR USE ON:** Most glass, porcelain, ceramic, enameled, painted, plastic, rubber, metal, sealed leather, wood, grout, concrete, and similar nonporous surfaces.

DIRECTIONS: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **TO CLEAN:** This product is not to be used on any surface or instrument that (1) is introduced directly into the human body, either in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. **GENERAL:** Shake container well before each use and hold it upright while spraying. For use on precleaned, hard, nonporous surfaces; not for use on humans or animals. Do not contaminate foods/drinks/feeds. Not recommended for use on waxed/polished surfaces, water-based "latex" paint, shellac, cellulose (such as rayon) or other alcohol-sensitive materials. **TO KILL HIV-1 (Human Immunodeficiency virus Type 1; AIDS virus) ON PRECLEANED SURFACES/OBJECTS** in health care or other settings with inanimate environmental surfaces/objects associated with the potential for transmission of HIV-1 and likely to be soiled with blood/body fluids, follow these additional **SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATING AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS: PERSONAL PROTECTION -** Barrier protection items such as disposable latex gloves, gowns, masks, and eye coverings should be worn when handling items soiled with blood/body fluids. **CLEANING PROCEDURE -** Blood/body fluids must be thoroughly cleaned from surfaces/objects before application of this product as a disinfectant. **CONTACT TIME -** Same as for disinfecting. **DISPOSAL OF INFECTIOUS MATERIALS -** Blood/body fluids and other materials removed from or used to clean surfaces/objects should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

FOR DISINFECTING, MILDEW CONTROL, SANITIZING, AND DEODORIZING OF CLEAN, NON-FOOD CONTACT SURFACES: Hold container upright about 6 to 8" (1/5 m) from surface and spray until target area is thoroughly wetted. Let air dry. Complete disinfection and tuberculocidal activity require a contact time of 10 minutes at approximately 68°F (20°C). Sanitization requires a 5 minute contact time at about 72°F (22°C). For mildew control, repeat application when necessary. **TO DEODORIZE AND FRESHEN ROOM AIR:** Spray upward toward center and corners of room, keeping spray opening at least 3 ft. (1 m) from surfaces.

STORAGE AND DISPOSAL: Do not contaminate other materials (including foods/drinks/feeds/water) during transport, use, storage, and disposal. If damaged or leaking, soak up and wrap any waste, then dispose of as below. **STORAGE:** Keep in a cool, dry, locked area inaccessible to children and away from sources of heat and ignition (including flames, sparks, hot surfaces, and sunlight). **DISPOSAL:** Do not puncture or incinerate! Place in trash or offer for recycling if available.

PRECAUTIONS: **HAZARDS TO HUMANS AND DOMESTIC ANIMALS. WARNING:** Causes eye irritation; do not get in eyes, on skin, or on clothing. May be harmful if swallowed. Avoid breathing spray mist or vapors.

FIRST AID: If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PHYSICAL/CHEMICAL HAZARDS: Flammable. Contents under pressure. Keep away from heat, sparks, pilot lights, and flames. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54°C) may cause bursting.

Before using this product read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.
