**-NEW HIGHLY ACTIVE, LOW-COST
Granules sustain Suds and Cleaning
power twice as long as old fashioned
formulations.**

SEE A NEW GLEAM TO GLASSES, DISHES, SILVER, AND PANS

MAKES DISHES AND GLASSWARE SPARKLE—What's the hardest test you can think of for a detergent? Dried egg yolk ... lipstick stains on glasses ... greasy fry or bake pans ... whatever it may be - Foremost 5510 Compound makes dishes sparkle! Rinses freely, too. Glasses dry spot free, sparkling clean.

THRIFTY TO USE—Foremost 5510 is so highly concentrated, a little goes a long way. Only two ounces makes a sinkful of sudsy, thorough cleaning, fast acting wash solution. That's one reason so many restaurant and bar owners recommend it ... as well as knowing that with Foremost 5510 they'll have low bacteria counts, sparkling dishes and glasses, and satisfied customers.

— NOTE —

Easy On The Hands:

Foremost 5510 is non-irritating to the hands, is absolutely free of harsh alkalies and allergy-inducing fatty-acids. Emollients protect the most sensitive skin.

MANY USES

Foremost 5510 is versatile, use for all manual cleaning: glasses, dishes, silverware, pots, pans, etc.

TECHNICAL DATA

FOREMOST 5510 MANUAL DISHWASHING DETERGENT

Rev. 1-11-21

- DESCRIPTION:** An outstanding powdered formulation possessing a pleasing aroma. It has good sudsing properties, is an excellent grease emulsifier, and is outstanding as a soil dispersant. It is completely soluble in water, rinses freely, and is mild to the skin.
- APPLICATION:** It is approved for dishwashing, glass, and silverware cleaning in restaurants, hotels, hospitals, schools, motels and many other institutions.
- DIRECTIONS:** Approximately ½ cupful to a standard 15 gallon capacity sink will be satisfactory. Concentrations may be varied to meet existing cleaning conditions and water characteristics. Usually harder water requires slightly larger quantities of compound. Normally, for heavy duty pot and pan cleaning, increased concentrations of Foremost 5510 Manual Dishwashing Detergent are recommended.
- PRECAUTIONS:** **KEEP OUT OF REACH OF CHILDREN.** Alkaline Cleaning Compound. May be harmful if swallowed. Do not mix with foodstuffs. Avoid contact with eyes and prolonged contact with skin. If contact with eyes occurs, immediately flush with water for 15 minutes and call a physician if burning persists.

FACTS

- 1.It's a powder
- 2.Excellent emulsification
- 3.Improved rinsability
- 4.Good sequestration
- 5.It's completely neutral
- 6.It's activated
- 7.Excellent soil suspension
- 8.Good foam stability
- 9.Excellent glass cleaner

BENEFITS

1. Very economical; no waste from spillage
2. It will remove the most stubborn food deposits
3. It rinses thoroughly leaving no excess foam or food deposits
4. It will work exceptionally well in both hard and soft water; no rings in dish pan from hard water
5. The pH is controlled so that you have no attack on the operator's hands
6. It begins work immediately, dissolving grease and soil
7. The food particles are held in suspension, without redeposition, until thorough rinsing is accomplished
8. The suds are stable even in such stubborn grease as fish and chicken grease
9. Glasses come sparkling clean, drying completely without residual films or rings.
