

5510C CAR & TRUCK WASH

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

Activated suds speeds washing. After a quick rinse, car or truck dries glossy - no streaks.

PENETRATES AND FLOATS OFF — Tenacious soils and road film. Superior detergency and rinsability make the difference between Foremost 5510C and other products. Where other formulations can do a good or passable job, Foremost 5510C delivers a very good or excellent car or truck wash. Minimizes scrubbing on manual washing.

PROTECTS — Foremost 5510C will not damage, degloss or streak sound paint. No attack on decals or painted signs. Quickly solutionizes in cold or hot water. Can be used through type of sprayer pump. Safe on aluminum.

TECHNICAL DATA

FOREMOST 5510C CAR & TRUCK WASH

Rev. 10-11-17

DESCRIPTION: A free-flowing formulation possessing rapid penetrating and wetting agents. It effectively removes dirt, grease, oil and road film from vehicle bodies. Controlled foaming action allows good rinsability and subsequently a cleaner surface.

APPLICATION: It is designed for cleaning cars, transportation vehicles, such as trucks, buses, tractors, trailers, vans, farm implements and others.

DIRECTIONS: **FOR MANUAL CLEANING:** Dissolve one to two ounces in a clean, empty three to four gallon pail by adding water in a forceful circular motion to create suds. Apply solution with sponge, mitt or cloth. Wash one section at a time and rinse before the solution has dried. Wipe windows and chrome with a clean cloth or chamois.

FOR SPRAY WASHING: For normal cleaning operations, dissolve one lb. in 50 gallons water. For heavier cleaning such as may be found on trucks, trailers, tractors, etc., it may be necessary to increase the concentration to 1 lb. to 2 lbs. per 50 gallons of water. Pre-dissolve, completely, in small quantity of warm water before adding total volume of water.

Most jobs require two spray applications of the cleaning solution. First, pre-rinse with plain water, then spray first application, allow to set one to two minutes to loosen the soil. Follow with a second application and then follow with a final rinse.

NOTE: Avoid washing vehicles that are hot from standing in the sun. Pre-cool by rinsing with water before washing. Wash vehicle in shaded area.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** Avoid contact with eyes. May cause irritation to eyes. Repeated contact may cause redness and dry cracked skin. Do not take internally. Wash thoroughly after handling.

FIRST AID: In case of contact immediately flush eyes with plenty of water for at least 15 minutes. If irritation persists obtain medical attention.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.

FACTS

1. Dry powder
2. Controlled pH
3. Protects
4. Non-toxic
5. Thorough rinsing

BENEFITS

1. Very economical to use
2. Safe on painted surfaces and user's hands
3. You may wash stainless steel, aluminum, painted or unpainted surfaces without harm
4. Completely safe when used as directed
5. Complete rinsing leaves nothing to dull finishes
