

5810-B SUPER CONCENTRATE

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

FAST ACTING WETTING

PENETRATES - SPEEDS CLEANING

SUPER FAST WETTING & PENETRATING is the secret. Car wash at or thru the brushes must wet-out instantly to be of value. Deterasive action that takes soak time is valueless, it's rinsed off before it delivers.

FOREMOST 5810-B lubricates, creates slip to soften friction between car finishes and brushes. Saves on brush replacement.

VERSATILE—

- (1) As little as 1 gal. per 800 cars metered into the pre-rinse makes the water stick and start penetrating stubborn soils.
- (2) About 1 gal. per 200 to 400 cars through the **POWER SPRAY or BRUSHES** gives excellent detergency. Facilities preferring an alkaline product in this stage can benefit greatly by adding an ounce of 5810-B to each 2 lbs. of powder to increase suds, enhance cleaning action, and save on brush wear.

FOREMOST 5810-B is an intensely active non-alkaline formula. It contains no fillers, tallow, fatty acids, nor any harmful components.

HIGH CONCENTRATION—This "super sudser", even in diluted solutions produces lather-like, clinging, working suds that look great even in hard water, and clean beautifully.

ECONOMICAL—No compromise with concentration or quality. 5810-B goes twice, sometimes three times, as far with better results compared to ordinary liquids.

TECHNICAL DATA

FOREMOST 5810-B SUPER CONCENTRATE

Rev. 6-23-17

DESCRIPTION: A highly active, non-alkaline, liquid formula containing no fillers, tallow, alkalies or other harmful components, which combines unique high, stable sudsing with ease of rinsing while being extremely gentle to the skin when used manually.

APPLICATION: Recommended for tunnel car washing, manual truck or vehicle washing, and cleaning of aircraft exteriors. Many other applications for this mild liquid detergent will suggest themselves.

DIRECTIONS: **TUNNEL CAR WASHES:**

1. Pre-rinse: Use 1 gallon per 400 to 800 cars.
2. Power Spray: 1 gallon per 200 to 400 cars. If alkaline solution is being used, add 1 oz. of 5810-B per 2 lbs. of cleaning compound, for increased penetration and sudsing.
3. Spray-on: 1 gallon per 200 to 400 cars.
4. Mitt Tanks: 2 oz. per 20 to 30 gallons water.
5. Air Sudser: 1 gallon per 200 gallons water.
6. Water rinse for a streakless surface.

MANUAL TRUCK OR VEHICLE WASHING: One oz. per 5 gallons water. Water rinse for a streakless surface.

AIRCRAFT, EXTERIOR CLEANING: One oz. per 5 gallons water. Water rinse for a streakless surface.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** May cause eye irritation. Avoid contact with eyes. Do not take internally. May be harmful if swallowed.

FIRST AID: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately if irritation persists.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.

FACTS

1. It's a liquid
2. Superior suds
3. Economical
4. Increased rinsability
5. Controlled pH
6. Wets-out fast

BENEFITS

1. Ideal for automotive dispensing
2. Foam level is high and stable under most extreme conditions
3. Highly concentrated for long use mileage—thick, rich lather
4. Rinse water flows off in "sheet flow" manner for a film free surface
5. No harm to paint or personnel due to neutral pH for maximum safety
6. Most detergents don't deliver their potential because they are rinsed before they act
