

611-ES SUDS-N-KLEEN

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

Fast penetration of soils and road films for speedy wash jobs.

**BRINGS OUT ALL THE GLOSS
AND BEAUTY ON WAXED
OR PAINTED FINISHES.**

**FOREMOST 611-ES
HELPS GIVE THE
SPARKLING,
SHINING
CAR WASH JOB THAT MAKES
YOUR CUSTOMERS SMILE**

**RINSES EASILY – MINIMIZES WIPING
DRIES GLOSSY – NO STREAKS OR WATER SPOTS**

FOREMOST 611-ES is a new concept in synthetic detergency. Does not contain soap, acids, alkalies or abrasives. It is safe to use on the finest acrylic or lacquer finishes and will not harm waxed, porcelainized, silicone or plastic surface coatings.

LABOR SAVING—Foremost 611-ES quickly penetrates soils and holds them in suspension in lather-like suds.

UNIQUE RINSING characteristics cause surface to "sheet" or "flat" dry with few or no bubbles. Glass and chrome should be toweled, but body surface generally dries to glossy shine without labor.

LESS THAN ONE OUNCE of Foremost 611-ES makes up a 5 gallon pail full of sudsy, energetic, labor-saving and customer pleasing solution. Foremost 611-ES is furnished in high concentration for economy of purchase and economy of use.

— NOTE —

FLAKES, POWDERS, and other old-fashioned carwashing compounds deteriorate in storage.

Foremost 611-ES, an easy to handle and simple to measure liquid, is not hygroscopic. It does not cake, stratify or lose effectiveness.

RECOMMENDED FOR—

- Manual Car Washing
- Spray Wash Pumps
- Automatic Feed Systems

Packed in 55 Gallon Drums

TECHNICAL DATA

FOREMOST 611-ES SUDS-N-KLEEN

Rev. 8-15-16

DESCRIPTION: Foremost 611-ES Suds-N-Kleen is an outstanding automotive cleaner in liquid form containing no soaps or other harmful components. It performs well in both hard and soft water areas providing maximum safety to glass, paint, enamel, wood, upholstery, rubber and quality waxed surfaces. It is composed of pure synthetic materials which allow optimum cleaning and complete rinsing action to surfaces being cleaned.

APPLICATION: Recommended for tunnel car washing, manual truck or vehicle washing, and cleaning of aircraft exteriors. Many other applications for this mild liquid detergent will suggest themselves.

DIRECTIONS: **MANUAL TRUCK OR VEHICLE WASHING:** 1 to 3 ounces of Foremost 611-ES Suds-N-Kleen per 3 to 5 gallons of water is usually sufficient for a fast and thorough cleaning job. First wet the portion of the automotive surface to be cleaned with a hose and apply Foremost 611-ES solution with a sponge, cloth, or through a washmobile unit. Rinse with an even flow of water.

NOTE: Avoid washing a surface that is hot from standing in the sun. Pre-cool by rinsing with cool water before washing. Wash only a portion at one time and rinse before proceeding to the next area. Wash from the bottom up toward the top, rinse and then proceed to the next area. Always wash in a shaded area, if possible, to prevent uneven drying.

TUNNEL CAR WASHES:

1. Pre-rinse—Use 1 gallon per 400 to 800 cars.
2. Power Spray—1 gallon per 200 to 400 cars.
3. Spray-on—1 gallon per 200 to 400 cars.
4. Mitt Tanks—2 ozs, per 20 to 30 gallons water.
5. Air Sudser—1 gallon per 200 gallons water.
6. If alkaline compound is being used in above situation, add 1 oz. of 611-ES per 1 lb. of cleaning compound, for increased penetration and sudsing.
7. Water rinse for a streakless surface.

AIRCRAFT, EXTERIOR CLEANING: One oz. per 5 gallons of water. Water rinse for a streakless surface.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** May cause eye irritation. Avoid contact with eyes. Do not take internally.

FIRST AID: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately if irritation persists.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.

FACTS

1. It's a liquid
2. Superior suds
3. Economical
4. Increased rinsability
5. Controlled pH
6. Wets-Out fast

BENEFITS

1. Ideal for automotive dispensing
2. Foam level is high and stable under most extreme conditions
3. Highly concentrated for long use mileage—thick, rich lather
4. Rinse water flows off in "sheet flow" manner for a film free surface
5. No harm to paint or personnel due to neutral pH for maximum safety
6. Most detergents don't deliver their potential because they are rinsed before they act
