

616 SPOT NOT

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

**NOW VEHICLE WASHING
BECOMES COMPLETELY "SPOT FREE"**

***A REVOLUTIONARY
NEW DRYING AID
PROMOTES...***

**Glossy, Spot-Free, Paint,
Glass, and Aluminum**

***ELIMINATES UNSIGHTLY
WATER SPOTS***

**DELTA FOREMOST BRINGS YOU THE CUTTING EDGE
IN SPOT FREE VEHICLE WASHING.**

• **EASY TO MANAGE AND WORK WITH —**

Concentrated liquid easily dilutes and adapts perfectly to any automatic mixing and dispensing system. No clumpy powder to dissolve and stir. Injects directly into the water line from the drum.

• **ECONOMICAL LABOR SAVER —**

Only 2 ounces per 100 gallons of rinse water effectively eliminates mineral or soap residues on vehicle finishes.

• **SAFE ON ALL SURFACES —**

Leaves them all gleaming with a "like new" luster. Absolutely safe on any material found on a vehicle:

*Aluminum • Iron • Steel • Stainless Steel
Glass • Rubber • Plastic • Zinc
Chromium • Cadmium*

When used according to directions, it will not damage, degloss or streak sound paint. It will not attack decals or painted signs.

PACKED in 55 Gallon Drums

TECHNICAL DATA

FOREMOST 616 SPOT NOT

Rev. 1-18-19

DESCRIPTION: Foremost 616 Spot Not is a unique blue liquid that represents a very important development in the cleaning field for improving rinsability of hard surfaces. It has been found exceptionally satisfactory for use in water rinse systems in both automatic and manual operations. The use of this product in institutional and commercial car and truck washing programs has met with outstanding acceptance. Foremost 616 Spot Not is a concentrated drying aid that promotes free rinsing, leaving no water spots, streaks or dulling film. Hundreds of dollars per year can be saved in the wash bay with this revolutionary way of drying without toweling.

Many other important advantages are its compatibility with both hard and soft water, low foaming action, non-corrosiveness to metal surfaces, complete stability under varying water conditions. Long life and efficient performance. Staining and streaking caused by improper rinsing is virtually eliminated.

APPLICATION: Foremost 616 Spot Not provides a perfectly dry surface on glasses, painted surfaces, plastics and metals. It can be used in the rinse system of industrial cleaning operations.

DIRECTIONS: Approximately 1 to 2 ounces per 100 gallons of water is recommended. Merely add the desired amount directly into the final rinse system. Completely spray the surfaces to be rinsed, then allow to air dry. Hot rinse solutions afford faster drying action. Concentrations may be varied slightly to obtain the desired results. For economical reasons, it is suggested that the low concentration level be started and increased as needed. Frequency of additions may be determined by observation and will depend on length of use, concentration, types of surfaces and efficiency of the wash solutions.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** Contains Isopropyl Alcohol. Flammable liquid and vapor. Keep away from heat, sparks, and flame. Keep container closed. Use with adequate ventilation. Do not take internally. May cause eye irritation. Avoid contact with eyes. Wash thoroughly after handling.

FIRST AID: In case of contact with eyes, immediately flush eyes with plenty of water. Get medical attention if burning persists.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.
