

8350 2 QUART PUMP-UP SPRAYER

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

Professional Sprayer

- Lightweight
- Easy-To-Use
- Versatile

Instructions For Use

1. Unscrew sprayer head and fill container to mark. Do not overfill – space must be left for compressing air.
2. Screw on head assembly firmly to ensure an airtight seal.
3. Pump about 30 strokes.
4. To spray, depress the trigger with thumb.
5. Adjust nozzle to desired spray pattern.
6. Release pressure after use by unscrewing head assembly slowly which will allow air to escape.

The **Foremost 8350 two-quart pump-up sprayer** puts out a mighty spray! The 8350 is fully adjustable from an atomized mist to a straight stream.

NEW two-quart bottle features a larger neck opening for easy filling. All plastic – no metal parts are in contact with liquid to cause corrosion.

Fewer parts and a simple operational design promise a long service life.

Faster pressurizing by a larger improved air pump makes this lightweight, portable sprayer an attractive package.

Ideal For —

Cleaning Solutions	Insecticides
Sanitary Chemicals	Germicides
Carpet Chemicals	Air Fresheners

CAUTION: We do not recommend pressurizing strong caustic or strong acid products.

Packed In 55 Gallon Drums
