

8357

ECONO-FOAMER

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

EFFICIENT FOAM CLEANING, AND SANITIZING

Precision Dilution

**Economical,
Controlled Dispensing**

Eliminates Waste

**Increases Productivity -
Enhances Product Performance**

No Premixing Required

Large 48 oz. (1.4 liter) Capacity

EFFICIENT AND EFFECTIVE —

The Foremost 8357 Econo-Foamer is a lightweight, portable foamer/sprayer designed for use with foaming chemicals for efficient, cleaning and sanitizing. The Foamer's unique injection concept mixes the proper amount of concentrate with both air and water at preset dilution ratios to produce thick, rich foam for longer contact time. Application of diluted solutions with the Econo-Foamer is easy. Just fill the concentrate container and connect the dispenser to a water source. On and off functions are fingertip controlled using a trigger on the spray gun.

VARIABLE DILUTION RATIOS—

Fourteen metering tips* offer the user a choice of dilution ratios. Dilution Range* MAX 128:1 MIN 12:1

EASY APPLICATION —

Apply solutions to the surface to be cleaned and allow contact time. To rinse, the concentrate container is disconnected using an easy-to-operate quick coupler which is designed to allow either a full width spray or powerful jet stream when rinsing. Valve can be locked open for constant dispensing or rinsing. The Econo-Foamer can be used with up to 85 pounds water pressure.

USEFUL IN A WIDE VARIETY OF APPLICATIONS:

Restaurants	Dairies
Food Prep Areas	Institutions
Supermarkets	Automotive Shops
Food Processing Plants	Health Clubs/Spas
Meat, Fish, and Poultry Operations
