SPECIALTIES FOR MAINTENANCE
& SANITATION SINCE 1947

GALVANIZED STEEL SPRAYER

FM 8362 HD

- Extreme chemical resistant hose
- Separate opening allows for filling without removing pump
- Brass control valve lasts longer and shuts off quickly
- Strong, flexible 24" brass wand with extra large aperture
- Epoxy coated tank inside and out
- Two nozzles – Fan or Stream pattern
- Sprays up to 35% solids compounds
- Viton components for extreme chemical resistance
- Excellent for citrus based products, weed killers, solvents, cleaners, sanitizers and insecticides
- To extend the life of the sprayer, rinse tank and purge wand with water after each use

3.5 GALLON CAPACITY
