TECHNICAL DATA

FOREMOST 8540-ES DOUBLE DUTY CLEAN SCREEN

Rev. 12-8-15

DESCRIPTION: The Double Duty Clean Screen is a high quality urinal screen and deodorizer with chemical agents designed to minimize formation of uric acid crystals which clog urinal drains. The crystal block counteracts malodors from urinals and replaces them with a clean fresh fragrance.

APPLICATION: Any public bathroom will benefit from the use of the Double Duty Clean Screen. Not only does it reduce the discomfort caused by the odor of stale urine, but it also reduces maintenance on pipes and plumbing.

DIRECTIONS: Place the Double Duty Clean Screen in the urinal, positioning so that the screen covers drain holes. Replace the entire unit when deodorizing block is depleted.
