

9602 METER MITE

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

Eliminates manual mixing of solutions

PROVIDES CONTROL OF CHEMICAL USAGE

Eliminates Over-Use and Waste

- The convenient economical and accurate method of mixing and dispensing any water miscible liquid cleaner concentrate directly from the drum.
- Dispenses ready-to-use solutions into any reservoir, steamcleaner solution tank, drum, wash pail, containers.
- Mixing is accomplished by a siphon unit connected directly to a hot or cold tap water faucet.
- No guess work — stops chemical waste thru over-use of cleaning concentrates.
- Recommended for — General purpose cleaners, steamcleaner, car and truck cleaners, floor and janitorial cleaners and many others.
