SINKS

FOREMOST 9610 ECONOMETER (LIQUID PROPORTIONER)

Liquid controller which attaches to faucet, draws a liquid detergent from container and dispenses it to a desired proportion mixed with water. Has push button operated slide valve for easy manual selection of either water or a metered mixture. The proportion of product to water is regulated by an adjustment screw located toward the back of the econometer. This unit is without a doubt one of the most outstanding money savers in our line of equipment.
