### **ECONOMICAL FOAM CLEANING AT ITS BEST!**

Wall Mount Foam Master

**Delta's new Wall Mount Foam Master system uses field proven air operated pump technology to dispense premixed cleaning chemicals to achieve consistent and controllable foam quality.**

Foam cleaning is recognized as an effective method for removing organic and inorganic soils from all types of surfaces. It is used for cleaning throughout the food processing, dairy, transportation, industrial and agricultural industries.

Due to its characteristics, cleaning with foam is safe and cost effective. Foam can adhere to irregular surfaces and provide better coverage than liquid cleaning chemicals. Foam stays in place longer to actively lift dirt and oil from surfaces until it is rinsed off.

Delta's new Foam Master system dispenses a rich lather of foam at 50 gallons per minute with a projection distance of up to 30 feet. With a built-in 3 GPM (11 ltr/min) or 4 GPM (15 ltr/min) air operated pump, you'll get consistent foaming quality for clean results. Simply turn a knob and you can adjust the dryness or wetness of the foam for different cleaning applications. Foam Master – it's fast, it's easy, it's convenient!

- Cleans Any Surface
- Quality Foam
- Simple Operation
- Reliable, Chemical Resistant Air Operated Pump
- Chemical and Water Resistant Plastic Enclosure
- Dispenses Ready to Use Solutions
- Reduces Overall Cleaning Time and Cost of Cleaning
