Delta Foremost Chemical Corp.

3915 AIR PARK STREET • MEMPHIS, TENNESSEE 38118

**ALSO AVAILABLE IN CONVENIENT
DRY SPRAY AEROSOLS**

**VANILLA, LITE,
GREEN APPLE, CINNAMON,
BABY POWDER,
FLORAL BOUQUET, LEMON,
CITRUS CRÈME, CHERRY
& MANGO MAGIC.**

PRODUCT LONGEVITY

The pleasant, built-in identifying fragrance is itself eliminated in time along with malodors, leaving a fresh odor free atmosphere.

CARPET CARE

Smoke Eater may be added to carpet cleaning solutions to eliminate odors trapped in carpet fibers and pads.

RECOMMENDED USE

Hotels, Veterinarians & Kennels, Garbage Pick-Up Services, Apartment Complexes, Schools, Dormitories, Scavenger Services, Institutions, Offices, Fire Departments, Nursing Homes, Hospitals, Theatres, Fire Damage Remodelers, Health Clubs, Industrial Plants, Rendering Plants, Country Clubs & Auto Rental Companies.

APPLICATION METHODS

Fog using the FM 9630 Challenger Sprayer, foam dumpsters with the FM 8357 Econofoamer, or use the FM 8360 All Purpose Sprayer for larger jobs. Use the FM 8325 Trigger Sprayer for convenience and smaller applications.

FAVORABLE DILUTION

One pint of concentrated Smoke Eater with water added makes a gallon of ready-to-use odor control & air freshener.

• **AUTOMOTIVE & FLEET**

• **HOTELS & RESORTS**

• **COUNTRY CLUBS**

• **MEETING ROOMS**

EFFECTIVE

Smoke Eater is extremely effective in that it chemically neutralizes and eliminates smoke from cigars, cigarettes, marijuana and other unpleasant odors - not a mere cover-up or mask. Scavenger companies and garbage pick-up departments use it to deodorize containers. Remodelers use it to de-smoke burned out buildings. Foremost Smoke Eater is available in a variety of premium fragrances.

ELEGANT

Smoke Eater's fragrance is pleasantly elegant. Smoke Eater is used in some of the finest resorts and luxury class hotels, as well as hundreds of nationally recognized moderately priced motels and hotels.

ECONOMICAL

Smoke Eater is packaged as a concentrated liquid for maximum economy, saving time and material. The product is also available in convenient aerosol cans.

TECHNICAL DATA

DESCRIPTION: A high quality liquid concentrate designed for effective and total control of obnoxious odors. Special ingredients are blended to neutralize and destroy odors caused by organic decay, residual smoke particles, pet feces, mold, sewage and cooking. It acts instantly at the source and remains effective for long periods.

APPLICATION: Recommended for controlling odors in apartments, motels and hotels, restaurants, theaters, nursing homes, schools and other institutions, automobile and recreational vehicle dealers, business and office buildings, anywhere malodors exist.

GENERAL ROOM DEODORIZING DIRECTIONS: Dilute solutions are recommended for control of general odors. One part concentrate to 5-10 parts water should be sufficient, however, concentration can be varied to suit the needs. Application can be made through trigger sprayer or other suitable device. Spray carpets and draperies and other fabric areas primarily, as this is where most odors will linger.

CARPET DEODORIZING DIRECTIONS: Heavier odors generally exist in carpets, resulting from pets and spills of food and beverages. Stronger concentrations must be used: One part concentration to 1-5 parts water sprayed directly to offending area. Remember, soils or source of odor must be removed first before treating with Smoke Eater. When shampooing or steam cleaning carpets, general deodorizing can be made by adding 1/2 - 1 cup of concentrate to cleaning solution in tank.

HEAVY SMOKE DAMAGE, BUILDINGS DIRECTIONS: Controlling smoke odors in buildings where fire damage occurred requires all burned articles and surfaces be removed first and general cleaning measures taken. Full strength chemical must be used, application being made through a Foremost 9630 Challenger Sprayer. Saturate area with a fine mist and leave area closed for about a day. Ventilate area afterwards for several hours. Be sure to use respirator while applying concentrate or for prolonged exposure in closed areas.

NOTE: Quality finished wood surfaces should first be covered with plastic.

PRECAUTION: KEEP OUT OF REACH OF CHILDREN. May cause eye irritation. Avoid contact with eyes. No irritation is likely following short contact periods with human skin. Prolonged and/or repeated exposure may lead to redness, swelling, irritation. Do not take internally.

FIRST AID: EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get medical attention if burning persists. **INGESTION:** Get medical attention.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.
